## 2know *Marg Helgenberger* Emmy-nominated star of *CSI*

In her final season portraying the fictional Catherine Willows on CBS' *CSI: Crime Scene Investigation*, which opens its 11th season on Sept. 23, Marg Helgenberger has become something of an expert about the nonfictional Las Vegas. The Emmy-winning actress (*China Beach*) also memorably played a chemical exposure victim in *Erin Brockovich*, in addition to other roles. Inspired by her long-running show, *CSI: The Experience* at MGM Grand celebrates its one-year anniversary this week.

If you've noticed a lot of Bordeaux around The Venetian and Palazzo this month, there's a reason. The resorts are celebrating **Festivino**, where select varieties of that wine are available at all the resorts' bars by the glass (and for a great price). That's not all: Three-course prix fixe menus at Morels French Steakhouse & Bistro at The Palazzo and Pinot Brasserie at The Venetian feature Bordeaux, and a Sept. 24 wine-tasting event at Azure pool at The Palazzo combines wine, cheese and a DJ for a very enjoyable evening.
